Tea made from 100% Deer horn ganoderma lucidum from Hokkaido.

- You can make 1.5ℓ of tea with one tea bag.
- Ideal as a gift.

Generally speaking, Ganoderma lucidum contains more β -glucan than the other mushrooms.
 Hokkaido made Ganoderma lucidum has a high content of β -glucan no others can be matched.
 Its β -glucan content is about 6 times as more than β -glucan content of Agaricus.

It is introduced as a fine medicine (non toxic drugs can be used in lon-term) in "Shen Nong Materia Medica through" that is the oldest pharmacy certificate of China.

How to Boil Pour 1.5 liters of hot water with one tea bag, and let it boil until the steam comes out. Then boil it fro 30-40 minutes with low heat.
 ※Boil with Chinese medicine brewer, earthenware, glass or enamel teapot. Do not use iron, aluminum and stainless steel.

How to Drink You can enjoy the tea either hot ro cold. It has slightly bitter taste because of its ingredient:100% natural Ganoderma Lucidum.
 Add sugar or honey to suppress the bitterness.
 Remove tea bag after the boiling. Boiled tea can be stored for two days in a fridge.
 Put used tea bags into a cotton bag. The bag can be used as a bathing agent. (about 15 bags for one bath tab).
