C h a r a c t e r i s t i c	Tea made from 100% Red ganoderma lucidum from Hokkaido.						
	<ul style="list-style-type: none"> <li>• You can make 1.5ℓ of tea with one tea bag.</li> <li>• Aluminum bag for easy storage.</li> </ul>						
	Generally speaking, Ganoderma lucidum contains more β -glucan than the other mushrooms.						
	Hokkaido made Ganoderma lucidum has a high content of β -gulcan no others can be matched.						
	Its β -gulcancontent is about 6 times as more than β -gulcan content of Agaricus.						
	It is introduced as a fine medicine (non toxic drugs can be used in lon-term) in "Shen Nong Materia Medica through" that is the oldest pharmacy certificate of China.						
<b>How to Boil</b>	Pour 1.5 liters of hot water with one tea bag, and let it boil until the steam comes out. Then boil it fro 30-40 minutes with low heat. ※Boil with Chinese medicine brewer, earthware, glass or enamel teapot. Do not use iron, aluminum and stainless steel.						
<b>How to Drink</b>	You can enjoy the tea either hot ro cold. It has slightly bitter taste because of its ingredient:100% natural Ganoderma Lucidum. Add sugar or honey to suppresse the bitterness. Remove tea bag after the boiling. Boiled tea can be stored for two days in a fridge. Put used tea bags into a cotton bag. The bag can be used as a bathing agent. (about 15 bags for one bath tab).
